DOWNLOAD

To begin with, some of your apps may not be working properly (or simply crash) on newer operating systems.. Finally, if you want to run a parallel copy of Mac OS X on a virtual machine, you too will need a working installation file of an older Mac OS X.

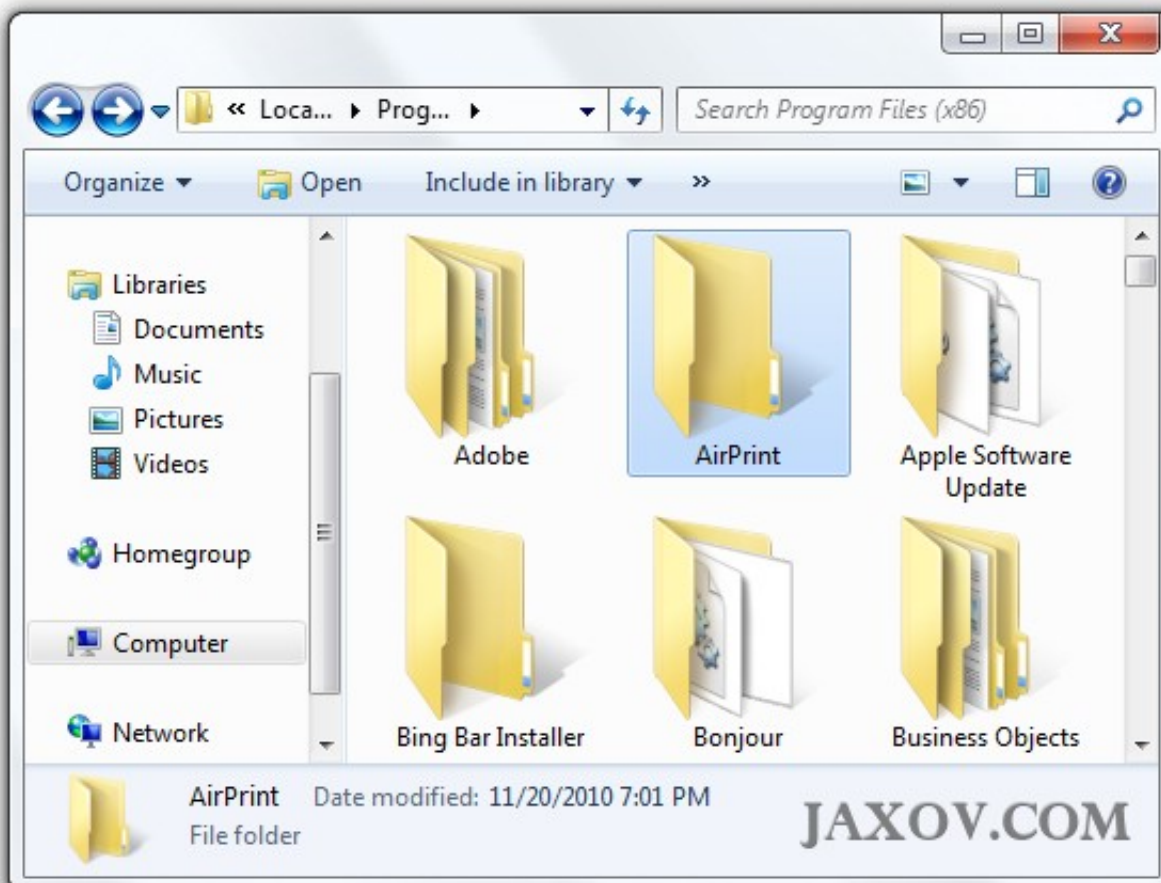

1. [downloads of mac software are ordinarily supplied as a package](#)

So, you've decided to download an older version of Mac OS X There are many reasons that could point you to this radical decision.. Also, you may have noticed your Mac's performance went down right after the last update.. Further down we'll explain where to get one and what problems you may face down the road.
